NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

Editors-in-Chief

STEVEN J. COOPER

Department of Psychology
University of Liverpool
Eleanor Rathbone Building
Liverpool L69 72A
UK
E-mail: s.j.cooper@liverpool.ac.uk

ANN E. KELLEY

Department of Psychiatry
University of Wisconsin - Madison Medical School
6001 Research Park Blvd
Madison, WI 53719
USA
E-mail: aekelley@macc.wisc.edu

Editorial Advisory Board

JOHN AGGLETON, University of Wales, College of Cardiff, Cardiff, UK
JOCELYNE BACHEVALIER, University of Texas Health Science Center, Houston, TX
CAROL A. BARNES, University of Arizona, Tucson, AZ
JILL BECKER, University of Michigan, Ann Arbor, MI
D. CAROLINE BLANCHARD, University of Hawaii, Honolulu, HI
H. STEFAN BRACHA, VA National Center for PTSD, Honolulu, HI
VERITY BROWN, University of St. Andrews, Fife, UK
LARRY L. BUTCHER, University of California, Los Angeles, CA
ANTOINE DEPAULIS, INSERM, Strasbourg, France
JEAN DE VRY, Institute of Neurobiology, Cologne, Germany
GAETANO DI CHIARA, University of Cagliari, Cagliari, Italy
COLIN T. DOURISH, Cerebrus Ltd, Wokingham, UK
DAVID EILAM, Tel Aviv University, Tel Aviv, Israel
BARRY J. EVERITT, University of Cambridge, Cambridge, UK
MICHAEL S. FANSELOW, University of California, Los Angeles, CA
A. J. GOUDIE, University of Liverpool, Liverpool, UK
MARK A. GLUCK, Rutgers University, Newark, NJ
CHARLES A. HEYWOOD, University of Durham, Durham, UK
MICHAEL H. JOSEPH, University of Leicester, Leicester, UK
ANDREW R. MAYES, University of Liverpool, Liverpool, UK
NEIL McNAUGHTON, University of Otago, Dunedin, New Zealand
PETER J. MORGANE, University of New England, Biddleford, ME
JOHN NELSON, Monash University, Clayton Victoria, Australia
RANDOLPH J. NUDO, University of Texas, Houston, TX
GEORGE PAXINOS, Prince of Wales Medical Research Institute, Randwick, Australia
PETER REDGRAVE, University of Sheffield, Sheffield, UK
TREVOR W. ROBBINS, University of Cambridge, Cambridge, UK
TERRY E. ROBINSON, University of Michigan, Ann Arbor, MI
JERRY RUDY, University of Colorado, Boulder, CO
BENJAMIN RUSAK, Dalhousie University, Halifax, NS, Canada
PAUL SANBERG, University of South Florida, Tampa, FL
SUSAN SCHIFFMAN, Duke University, Durham, NC
PER A. T. SÖDERSTEN, Karolinska Institute, Stockholm, Sweden
RICHARD F. THOMPSON, University of Southern California, Los Angeles, CA
IAN Q. WHISHAW, University of Lethbridge, Lethbridge, AB, Canada
NORMAN WHITE, McGill University, Montreal, Que., Canada
JOHN YEOMANS, University of Toronto, Toronto, ON, Canada

Founding Editor: Matthew J. Wayner

Neuroscience & Biobehavioral Reviews is an official journal of the International Behavioral Neuroscience Society. For information about the society, please contact: Marianne Van Wagner, IBNS Central Office, Division of Life Sciences, The University of Texas at San Antonio, 6900 North Loop1064 West, San Antonio, TX 78249-0662 USA. Fax: (210) 458-4510 or E-mail: editoff@lonestar.utsa.edu. Members of the International Behavioral Neuroscience Society may order personal subscriptions at a concessional rate: details of this rate are available upon request.

Author enquiries

For enqueries relating to the submission of articles (including electronic submission), the status of accepted articles through our Online Article Status Informations System (OASIS), author Frequently Asked Questions and any other enquiries relating to Elsevier Science, please consult http://www.elsevier.com/locate/authors/

For specific enquiries on the preparation of electronic artwork, consult http://www.elsevier.com/locate/authorartwork/

Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided when an article is accepted for publication.

CONTENTS OF VOLUME 25

NUMBER 1

B. J. W. Losier and R. M. Klein	A review of the evidence for a disengage deficit following parietal lobe damage	1
M. M. Mauer, R. B. S. Harris and T. J. Bartness	The regulation of total body fat: lessons learned from lipectomy studies	15
C. Rachal Pugh, M. Fleshner, L. R. Watkins, S. F. Maier and J. W. Rudy	The immune system and memory consolidation: a role for the cytokine IL-1β	29
I. Tayfun Uzbay and M. W. Oglesby	Nitric oxide and substance dependence	43
J. E. Steiner, D. Glaser, M. E. Hawilo and K. C. Berridge	Comparative expression of hedonic impact: affective reactions to taste by human infants and other primates	53
R. H. Paul, R. A. Cohen, T. Zawacki, J. M. Gilchrist and M. S. Aloia	What have we learned about cognition in myasthenia gravis?: a review of methods and results	75
H.-P. Lipp, M. G. Pleskacheva, H. Gossweiler, L. Ricceri, A. A. Smirnova, N. N. Garin, O. P. Perepiolkina, D. N. Voronkov, P. A. Kuptsov and G. Dell'Omo	A large outdoor radial maze for comparative studies in birds and mammals	83

NUMBER 2

J. G. Mercer and J. R. Speakman	Hypothalamic neuropeptide mechanisms for regulating energy balance: from rodent models to human obesity	101
S. M. Korte	Corticosteroids in relation to fear, anxiety and psychopathology	117
B. Beck	KO's and organisation of peptidergic feeding behavior mechanisms	143
G. Brand, J.-L. Millot and D. Henquell	Complexity of olfactory lateralization processes revealed by functional imaging: a review	159
M. Orosco and K. Gerozissis	Macronutrient-induced cascade of events leading to parallel changes in hypothalamic serotonin and insulin	167
P. Tassi and A. Muzet	Defining the states of consciousness	175
A. Meneses	Could the 5-HT_{1B} receptor inverse agonism affect learning consolidation?	193

NUMBER 3

M. Kavaliers and K.-P. Ossenkopp	Measuring anxiety in animal models: an introduction to the symposium	203
D. C. Blanchard, G. Griebel and R. J. Blanchard	Mouse defensive behaviors: pharmacological and behavioral assays for anxiety and panic	205
P. Palanza	Animal models of anxiety and depression: how are females different?	219
E. Choleris, A. W. Thomas, M. Kavaliers and F. S. Prato	A detailed ethological analysis of the mouse open field test: effects of diazepam, chlordiazepoxide and an extremely low frequency pulsed magnetic field	235
A. Holmes	Targeted gene mutation approaches to the study of anxiety-like behavior in mice	261
P. M. Wall and C. Messier	Methodological and conceptual issues in the use of the elevated plus-maze as a psychological measurement instrument of animal anxiety-like behavior	275

NUMBER 4

J. H. G. Williams, A. Whiten, T. Suddendorf and D. I. Perrett	Imitation, mirror neurons and autism	287
D. Benton	Micro-nutrient supplementation and the intelligence of children	297
C. R. Park	Cognitive effects of insulin in the central nervous system	311
A. C. DeVries, R. J. Nelson, R. J. Traystman and P. D. Hurn	Cognitive and behavioral assessment in experimental stroke research: will it prove useful?	325
A. Y. Bespalov, E. E. Zvartau and P. M. Beardsley	Opioid-NMDA receptor interactions may clarify conditioned (associative) components of opioid analgesic tolerance	343
D. Friedman, Y. M. Cycowicz and H. Gaeta	The novelty P3: an event-related brain potential (ERP) sign of the brain's evaluation of novelty	355

NUMBER 5

J. Le Magnen	My scientific life: 40 years at the College de France	375
T. V. Sewards and M. A. Sewards	Cortical association areas in the gustatory system	395
D. Drai and I. Golani	SEE: a tool for the visualization and analysis of rodent exploratory behavior	409
N. M. Richtand, S. C. Woods, S. P. Berger and S. M. Strakowski	D3 dopamine receptor, behavioral sensitization, and psychosis	427
F.-C. Chang and M. R. Opp	Corticotropin-releasing hormone (CRH) as a regulator of waking	445
A. Gorji and M. Khaleghi Ghadiri	History of epilepsy in Medieval Iranian medicine	455

NUMBER 6

M. M. Müller and A. R. Mayes	Cognitive Neuroscience: Perception, attention, and memory	463
C. S. Herrmann and R. T. Knight	Mechanisms of human attention: event-related potentials and oscillations	465
A. C. Nobre	The attentive homunculus: Now you see it, now you don't	477
M. Eimer and J. Driver	Crossmodal links in endogenous and exogenous spatial attention: evidence from event-related brain potential studies	497
S. Grossberg	Linking the laminar circuits of visual cortex to visual perception: Development, grouping, and attention	513
A. Keil, T. Gruber and M. M. Müller	Functional correlates of macroscopic high-frequency brain activity in the human visual system	527
T. Kujala and R. Näätänen	The mismatch negativity in evaluating central auditory dysfunction in dyslexia	535
E. L. Wilding	Event-related functional imaging and episodic memory	545
A. R. Mayes and D. Montaldi	Exploring the neural bases of episodic and semantic memory: the role of structural and functional neuroimaging	555

NUMBER 7–8

R. J. Blanchard, D. C. Blanchard and F. G. Graeff	Foreword	575
M. Kavaliers and E. Choleris	Antipredator responses and defensive behavior: ecological and ethological approaches for the neurosciences	577
R. J. Blanchard, M. Yang, C.-I. Li, A. Gervacio and D. C. Blanchard	Cue and context conditioning of defensive behaviors to cat odor stimuli	587
R. A. Dielenberg and I. S. McGregor	Defensive behavior in rats towards predatory odors: a review	597
S. M. Brudzynski	Pharmacological and behavioral characteristics of 22 kHz alarm calls in rats	611
G. Griebel, N. Moindrot, C. Aliaga, J. Simiand and P. Soubrié	Characterization of the profile of neurokinin-2 and neurotensin receptor antagonists in the mouse defense test battery	619
L. K. Takahashi	Role of CRF_1 and CRF_2 receptors in fear and anxiety	627
H. Zangrossi Jr., M. B. Viana, J. Zanoveli, C. Bueno, R. L. Nogueira and F. G. Graeff	Serotonergic regulation of inhibitory avoidance and one-way escape in the rat elevated T-maze	637
L. C. Schenberg, A. S. Bittencourt, E. C. M. Sudré and L. C. Vargas	Modeling panic attacks	647
N. S. Canteras, É. R. Ribeiro-Barbosa and E. Comoli	Tracing from the dorsal premammillary nucleus prosencephalic systems involved in the organization of innate fear responses	661
K. A. Keay and R. Bandler	Parallel circuits mediating distinct emotional coping reactions to different types of stress	669
R. M. W. De Oliveira, E. A. Del Bel and F. S. Guimarães	Effects of excitatory amino acids and nitric oxide on flight behavior elicited from the dorsolateral periaqueductal gray	679
L. E. Kalynchuk, A. C. Davis, A. Gregus, J. Taggart, C. C. Dodd, A. J. Wintink and E. G. Marchant	Hippocampal involvement in the expression of kindling-induced fear in rats	687
A. P. Carobrez, K. V. Teixeira and F. G. Graeff	Modulation of defensive behavior by periaqueductal gray NMDA/glycine-B receptor	697

D. M. L. Vianna, J. Landeira-Fernandez and M. L. Brandão	Dorsolateral and ventral regions of the periaqueductal gray matter are involved in distinct types of fear	711
R. E. Adamec, J. Blundell and A. Collins	Neural plasticity and stress induced changes in defense in the rat	721
S. J. Barnes and J. P. J. Pinel	Conditioned effects of kindling	745
F. G. Graeff, M. Silva, C. M. Del Ben, A. W. Zuardi, L. A. B. Hetem and F. S. Guimarães	Comparison between two models of experimental anxiety in healthy volunteers and panic disorder patients	753
D. C. Blanchard, A. L. Hynd, K. A. Minke, T. Minemoto and R. J. Blanchard	Human defensive behaviors to threat scenarios show parallels to fear- and anxiety-related defense patterns of non-human mammals	761
